- Problem-solving skills
- Collaborative team player
- Effective decision maker

PROJECTS

ONLINE RETAIL MANAGEMENT SYSTEM:

2024

- Created in **MYSQL-WORKBENCH.**
- It is a database project which includes 10 tables namely Customers, BankAccounts, Items, ItemClasses, Orders, OrderDetails, Discounts, Bills, Suppliers and SupplierItems.

Online-Retail-Management-Database

Portfolio:

2024

- Crafted a personal portfolio website with HTML, CSS, and JavaScript.
- Includes sections for About Me, Projects, and Contact, featuring a downloadable resume and professional profile links.
- Optimized for desktop viewing with focus on user experience.

Portfolio

BookWebApp:

2024

- Created a web application using Java Servlets and HTML, CSS to handle book registration, editing, and deletion, leveraging JDBC for database operations.
- Designed and implemented functionality for Create, Read, Update, and Delete (CRUD) operations with a MySQL database, ensuring efficient data handling and user interaction.
- Utilized Bootstrap for responsive and visually appealing front-end design, improving the user experience and accessibility of the book management system.
